

1	Headlight unit, left	10	Washer pump	27	Pre-resistance, blower motor	Wire Color Code
a	High beam	11	Cigar lighter	28	Pre-resistance 1.8 Ω	ws = white
b	Low beam	12	Glove compartment light	29	Ignition coil	gn = green
c	Standing/parking light	13	Glove compartment light switch	30	Distributor	br = brown
d	Turn signal light	14	Solenoid valve, automatic transmission	31	Spark plugs	ge = yellow
e	Fog light	15	Starter-lockout and back-up light switch	32	Plug connection, cable to rear components	gr = grey
2	Headlight unit, left	16	Signal system contact	33	Trunk light	rs = pink
3	Brake fluid indicator light switch	17	Combination switch	34	Blower motor	bl = blue
4	Brake light switch	a	Turn signal light switch	35	Fuel gauge sensor	rt = red
5	Parking brake indicator light switch	b	Passing light switch	36	Radio	sw = black
6	Instrument cluster	c	Dimmer switch	37	Alternator	el = ivory
a	Turn signal indicator light, left	d	Wiper switch	38	Voltage regulator	nf = neutral
b	Turn signal indicator light, right	e	Switch for wiping speed	39	Starter	vi = purple
c	Fuel reserve warning light	18	Fuse box	40	Battery	
d	Fuel gauge	19	Carburetor heater, automatic starting device	41	Tail light unit, right	
e	Electric clock	20	Kick-down switch	42	License plate light	
f	Rheostat, instrument light	21	Door contact switch, front, left	43	Tail light unit, left	
g	Instrument lights	22	Front dome light w/switch	a	Turn signal light	
h	Charge indicator light	23	Door contact switch, front, right	b	Tail/parking light	
i	High beam indicator light	24	Rotary light switch	c	Back-up light	
k	Brake fluid and parking brake indicator light	25	Ignition starter switch	d	Brake light	
7	Dual-tone horns (fanfares)	26	Blower switch			
8	4-way warning flasher switch/timer					
9	Wiper motor					

Example:

Wire designation 1.5 gr/rt

Basic color gr = grey

Identification color rt = red

Cross section of wire 1.5 = 1.5 mm²
