

## 07.1-8317 Adjusting microswitch at injection pump

Operation no. of operation texts and work units or standard texts  
and flat rates:  
07-8317

P07-6212-13

P07-6211-13

### Engine 605.911

- Intake manifold ..... remove, install (14-1310).  
Bracket at rear of injection pump ..... remove, install.

### Engine 606.910

- Resonance intake manifold ..... remove, install (14-1961).

### All models

- Vacuum control valve ..... remove, install.  
Locking bolt (8d) of adjusting cam ..... slacken.  
Gauge (8c) ..... fit on to full load stop.  
Adjusting lever (16) of injection pump ..... turn until it is resting against the gauge (8c).

### Adjusting without multimeter

- Adjusting cam (8e) ..... turn counter-clockwise until both microswitches are heard to operate (clicking noise).

### Adjusting with multimeter

Adjusting cam (8e) . . . . .

turn counter-clockwise until the readout in multimeter is  $\infty \Omega$  (see connection illustration).

Locking bolt (8d) of adjusting cam . . . . .

### Note

Microswitch (S27/6) operates at 15° and 10° before full load.

tighten and remove gauge.

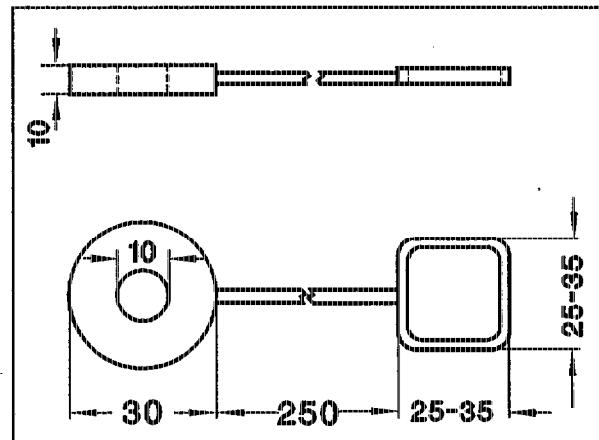

### Shop-made tool

#### Gauge

250 mm long, 3 mm dia. wire.

Washer outer dia. 30 mm, inner dia. 10 mm.

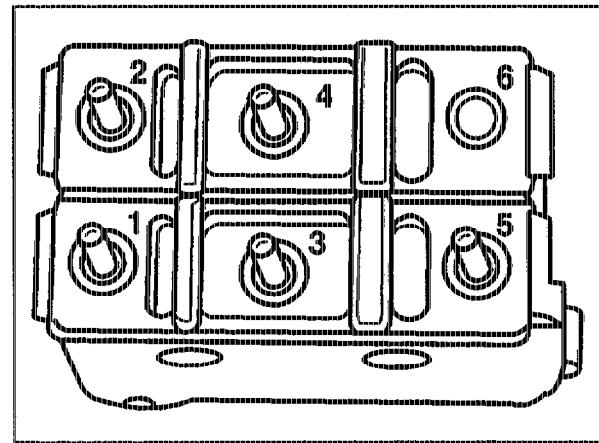

The wire must be welded to the washer.

P07-6080-13

### Connection diagram of microswitch

Unplug coupling at microswitch (S27/6) and connect multimeter to connector 1 and 3.
